Communiqué

COVID-19 Vaccine Update

It is with great frustration and regret that I must inform you that we will be unable to hold our Thursday (2/18) and Friday (2/19) COVID-19 vaccination clinics as planned. They are postponed until further notice. This delay is a direct result of the Centers for Disease Control & Prevention (CDC) and the Federal Government temporarily stopping the release of the federal vaccine supply.

I assure you that Willow Valley Communities did nothing wrong and was fully prepared to host these clinics. As we planned for the clinics, we were in constant contact with Phoebe Pharmacy, which also did all that they could do to obtain the vaccine as originally planned. This action by the CDC and the Federal Government has impacted not only Willow Valley Communities, but other senior living communities in Lancaster County, Pennsylvania, and across the country.

We will inform you of new dates for the vaccination clinic as soon as we get information regarding the release of the vaccine. We are anticipating this in the very near future. We apologize for the delay.

Denny — Dennis W. Griest, President & CFO
