

COVID-19 Advisory

To: Willow Valley Communities Residents
From: Dennis W. Griest, President and CFO, Willow Valley Living
Date: March 12, 2021
Subject: COVID-19 Positive Residents (2)
COVID-19 Positive Team Member (1)

Two Residents at Spring Run, a married couple, have tested positive for COVID-19. After feeling ill, both Residents were tested for COVID-19, at which time positive results were returned. The source of the infections is known, and is unrelated to Willow Valley Communities. The Residents remain in isolation in their own apartment.

A Housekeeping Team Member at North has tested positive for COVID-19. Their most recent day worked was 3/8.

Willow Valley Communities is following protocols for contact with appropriate government agencies and is taking every step possible to limit further exposure. Willow Valley Communities implemented its contact tracing protocols to identify any known persons (Residents and/or Team Members) with whom the affected Residents or Team Member may have had exposure that requires additional risk mitigation. Willow Valley Communities has implemented additional precautionary measures and enhanced monitoring within the communities in which the COVID-19 positive Residents live and in which the Team Member has worked.

Team Members working within the affected areas have been educated about specialized risk mitigation equipment and protocols, and will follow government health agency protocols for self-monitoring and daily screening.

We will continue to work with diligence and resolve to protect Willow Valley Communities' Residents and Team Members by implementing and adhering to, or exceeding, the most current recommended protocols and guidelines of the expert authorities in the medical and scientific communities.
