Willow Valley Communities is following protocols for contact with appropriate government agencies and is taking every step possible to limit further exposure. Willow Valley Communities implemented its contact tracing protocols to identify any known persons (Residents and/or Team Members) with whom the affected Residents or Team Members may have had exposure that requires additional risk mitigation.

We will continue to work with diligence to protect Willow Valley Communities' Residents and Team Members by implementing and adhering to, or exceeding, current recommended protocols and guidelines from expert authorities in the medical and scientific communities.
